

CORN, SOYBEAN, & COTTON INSECTICIDE

ENHANCED INSECT AND MITE CONTROL, PERFECT FOR ANYTIME DURING THE SEASON

Corn Application Recommendations

2.6 – 6.1 oz/A	Cutworms, flea beetle, western bean cutworm, grasshoppers, stalk borer.
4.0 – 10.3 oz/A	Aphids, armyworm, corn rootworm (adults), cereal leaf beetle, chinch bug, European corn borer, corn earworm, hornworms, Japanese beetle (adults), southern corn leaf beetle, corn blotch leafminer (adult), sap beetle, southwestern corn borer, stink bugs, webworms.
10.3 oz/A	Banks grass mite, carmine mite, two-spotted spider mite, lygus species.
Special Information	<p>12 hour REI; 30 day PHI grain/stover; 60 day PHI forage/silage; 3 day PHI sweet corn.</p> <p>Do not apply more than 41.2 oz/acre per season including at-plant applications (27.4 oz/acre on sweet corn, foliar use only).</p>

Cotton Application Recommendations

3.6 – 5.2 oz/A	European corn borer, grasshoppers, soybean (banded) thrips
5.2 – 6.4 oz/A	Armyworms (fall and yellowstriped), bollworm, cotton aphid, cotton flea hopper, cutworms, stink bugs
10.3 oz/A	Beet armyworm, carmine spider mite, Lygus species, pink bollworm, two spotted spider mite, whiteflies
Special Information	<p>12 hour REI, 14 day PHI</p> <p>Use minimum 1 gallon/acre of finished spray by air or 5 gallons/acre finished spray by ground.</p> <p>Maximum Total Seasonal Rate: 46.5 oz/A per season.</p>

Soybean Application Recommendations

2.6 – 6.1 oz/A	Bean leaf beetle, cutworms, flea beetle, grasshoppers, green cloverworm, thistle caterpillar, silverspotted skipper.
4.0 – 10.3 oz/A	Alfalfa caterpillar, armyworms, blister beetle, corn rootworm (adult), corn earworm, cowpea curculio, cucumber beetle (adult), decies stem borer, European corn borer, hornworms, false chinch bug, grape colaspis (adult), hornworms, Japanese beetle (adult), leafhoppers, leafminers (adult), loopers, Mexican bean beetle, seedcorn maggot (adult), soybean aphid, spittlebug, thrips, stink bugs, webworm, woolly bear caterpillar.
10.3 oz/A	Two-spotted spider mite, lygus species, whitefly.
Special Information	<p>12 hour REI, 21 day PHI.</p> <p>Do not apply more than 41.2 oz/acre per season. Read and follow label directions.</p>

Foliar Feeding

Disease Transmission

Bloom Feeding

Pod Feeding

Hero insecticide is a restricted use pesticide.

Product Attributes

Benefits

Longer Residual Activity with Fast Knockdown

Combines quick knockdown with longer pyrethroid residual for economical cotton insect pest and mite control.

Broad-Spectrum Insect Control

Controls key insects: bollworms, armyworms, stink bugs, plant bugs, fleahoppers, grasshoppers, and mites.

Flexibility Application

Can be applied alone or in tank mixes, ground or air, ULV application
